Immersive Spatial Technologies and Realities Labs (ISTaR Labs)
Faculty of Information and Communications Studies (FICS)
University of the Philippines Open University
Los Baños, Laguna, Philippines

October 13, 2026

CERTIFICATION

TO WHOM IT MAY CONCERN:

This is to certify that **PRINCESS JAENA MARIE O. DE LA PEÑA** is a **Junior Research Prefect** of the Immersive Spatial Technologies and Realities Labs (ISTaR Labs), a research group hosted by the Faculty of Information and Communications Studies (FICS) of the University of the Philippines Open University. She has held this role since December 2025 and remains an active member to date.

ISTaR Labs is headquartered in Los Baños, with a presence at UP Diliman and affiliate researchers at UP Cebu and UP Mindanao. The group works on extended reality, immersive learning, spatial computing, and science communication. Its flagship program, **Immersive Open Pedagogies (IOP)**, has been running since 2023.

As a Junior Research Prefect, Ms. De La Peña helps run the lab's research activities, including literature reviews, development and testing of immersive learning materials, data gathering, and coordination with fellow researchers under the IOP program.

This certification is issued upon her request.

Issued this 13th of October 2026 at Los Baños, Laguna.

Dr. Roberto B. Figueroa Jr.
Lab Head, Immersive Open Pedagogies Program
Faculty of Information and Communication Studies
University of the Philippines Open University
Affiliate Faculty, College of Science
